

TCM Forklift Part

TCM Forklift Part - Forklift trucks are a major player in the material handling field of each and every global industry. Transporting industrial goods happens each and every day on our industrious planet. Initially innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained popularity following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread globally.

In nineteen forty nine, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the business is simply called TCM Corporation. Throughout the years, TCM lift trucks have become a global leader in forklift manufacturing and have built a solid reputation in the industry. TCM started constructing lift truck manufacturing sites outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated expertise and technology, TCM has been proudly manufacturing various models of industrial forklifts, making their models known all around the world. With a strong and energetic employees, TCM has been able to constantly work towards becoming a future leading material handling business.
