

Meritor Part

Meritor Parts - Meritor is a premier global dealer which is proudly founded on a 100 year tradition of service and quality. They focus on different modules, integrated systems and components to original machine manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the international operations. The business values all their clients and wants to guarantee their success while anticipating their diverse needs. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 people, Meritor promotes innovation and collaboration among a team of experienced professionals.

By only hiring future focused workers, Meritor strongly feels these top-caliber individuals would be able to rapidly get used to to changing environments and demonstrate the performance and commitment required to be able to attain results in the competitive materials handling market. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers their employees various chances for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This consists of drivelines, axles, braking and suspension systems used for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of their global engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated all over the world in 19 countries and in 5 different continents.

They have their supplier network which is particularly located to be able to support the growth of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within each part of the trade. The DFSS or Design for Six Sigma ensures product reliability within each and every region. The team is likewise included transactional Green Belts who apply Six Sigma tools to business techniques and apply lean techniques.
